

Clean out your house, garage or yard!

Clean up your basement, garage, yard or home during the Citywide Curbside Cleanup. This is a great opportunity to dispose of bulky, unwanted items that are not routinely collected by your trash hauler.

ONLY residential properties within the Kendallville Corporate Limits are eligible to participate in the cleanup. Apartments with four or more units as well as all businesses or industries are not included in the program. Excess materials could cost you more money!

Program details

- Do not put materials out more than two days before your scheduled pickup day.
- Do not put items in plastic bags. Everything, except furniture and large metal, must be boxed or bundled with twine.
- Set your materials at the curb by 6 a.m. on your pickup day.
- Weight must not exceed 100 pounds per item/box.
- Trucks will go through only once on your scheduled day. If you miss your curbside pickup, you will be responsible for disposing of the refuse.

Donate reusable items

Do you have any items that are still usable? Instead of sending these items to a landfill, please consider donating them so someone else can use them.

Usable items are items you would feel comfortable giving to a friend or family member. These items are quality gently used and new items, fully-functioning, and free of rips, stains and pet hair.

Illegal dumping and scavengers

When scavengers cut lines in refrigerators and air conditioners to steal the copper, Freon or Chlorofluorocarbons (CFCs) are released into the air and accelerate the depletion of ozone. Therefore, please do not set out such appliances until the morning of your collection day.

Scavenging of piles can be a problem and makes the cleanup job harder than it should be. Any piles that have been scavenged through and left a mess will be left behind. Please monitor your pile as needed. **To report illegal dumping or scavengers that are making a mess, call (260) 347-0654.**
